## FOREWORD

EACH year, the CARDINAL is published by the Senior class for the purpose of keeping alive memories of the years spent at Plattsburgh State Normal. This year we hope to make it serve the double purpose of commemorating the fifty years of service the school has given to its students, as well as being a constant reminder of the many happy days we spent here.

## DEDICATION

WE, the class of 1940, dedicate this twenty-sixth volume of the *CARDINAL* to Mr. F. Osgood Smith in appreciation of his nineteen years of service to Plattsburgh State Normal School. We will long remember his fine philosophy, which, coupled with his whimsical wit and sense of proportion, have won him a special place in our memories.

## REPLY TO DEDICATION

TO THE SENIOR CLASS—

While it was primitive, of course, to throw rice upon the flooded oriental fields and romantic to wait for nature to plant and mature it, the realists and technicians of today should not overlook its universally approved symbolism. Cast your bread upon the waters, said the poetic prophet, and after many days it will return unto you.

When the seeds are those of genuine affection the days will be very many, often years.

I gladly join you in your dedication which offers the communion of requited confidence which is, indeed, the staff of life.

## APPRECIATION

TO

MISS RUTH A. WOODWARD

THE task of guiding youth through a critical stage of development is, at its best, not an easy one. We have been indeed fortunate in having as our guide one who has fulfilled her task with both efficiency and wisdom. Her clear understanding of youth, together with her calm sense of judgment, have made her an indispensable factor in any success our class may have achieved.

## APPRECIATION

TO

DR. A. G. PETERSON

ONE of the cornerstones of a teacher-training institution is its director of training. We wish to take this opportunity to express our gratitude to one who has served us so well.

THE year 1940 marks the completion of fifty years of service on the part of the Plattsburgh State Normal School. It is fitting that the CARDINAL should commemorate, at this half century milestone, the heritage, the traditions and the realized aspirations of those who have builded before us.

During the lifetime of the school, students and alumni have observed and participated in the profound changes which have occurred in American life. They have seen America transform itself from a society predominantly agricultural to the greatest industrial nation of all times. They have contributed to the creation of a unified nation whose crucible has molded a new world from all the races of the earth. Through all of this change they have helped to preserve, often amid impending chaos, the constitutional guarantee of opportunity and freedom within the law. No school can live apart from the people whom it serves, and it is a part of our heritage that the founders, the students, alumni and faculty have held steadfast to the trust imposed upon them to serve all of the people.

Our school is a school of the people, established through their legislature and preserved by its guarantee. It is an expression of the belief of our citizens that only through free schools and the preparation of teachers by the state for these schools can our democracy endure.

Our love and pride in our Alma Mater comes from our realization that from our halls have gone men and women worthy of the high trust placed in them as leaders and builders of a great nation.

No one could know our present student groups without sensing that all is well with our heritage and our future. Selected as they are this year from forty-one counties in our State, they represent the heart, the intelligence and the character that is America. Living in a world so much of which is nearer chaos than at any period during this half century, we face our future unafraid, firm in the belief that upon the foundation which has been so securely laid, we shall build even better toward the greater America of tomorrow.

## STUDENT COUNCIL

THE Student Council acts as an advisory and executive body to the House of Delegates. The officers of the House act in the same capacity to the Student Council. The other members, composed of three standing committees of the House, are as follows:

*Assembly Committee:* Maurice Camp, Eunice L'Ecuyer, Anna Becker, Gordon Streeter, Willson Daily.

*Student-Guidance Committee:* Roger Golden, Virginia Sherman, William Morhous.

*Social Committee:* Marie Jabaut, Mary Jane Feltman, LeRoy Manor.

The House of Delegates, composed of representatives from each school organization, is the clearing house for problems which arise in the student body. This year is the first year that it has operated under a written constitution. An assembly forum was held as a special attempt to give all of the students an opportunity to voice their opinions on school problems. The House cooperated with the Supper Club in making the second All-School Supper one of the outstanding events of the year. A major accomplishment was the sponsoring of a handbook which is to be published during the summer and distributed as a guide for entering students.

## RURAL SCHOOL

Little faces,  
Big faces.  
Smudgy faces.  
Bright and shining faces.  
Red cheeks and long hair—  
    and eyes  
Lots of eyes—  
Tired eyes, and eager eyes.  
Little eyes, and big eyes.  
Eyes—brown, and blue and green  
    and behind those eyes—  
Brains, little brains, curious brains.  
Dull brains, inventive brains  
    and in those brains—  
Who knows what? Schoolwork?  
Perhaps—The swimmin' hole  
Down by the crick?  
More likely—The wood that's  
Got to be chopped tonight?  
Probably—History, Geography,  
Arithmetic? We hope so.

Dungarees and patched trousers  
And high-topped boots.  
Plaid shirts and hand-me-down dresses  
And long underwear peeking out of  
Sleeves and socks.  
"Teacher, it's time for jogaphy."  
Geography—far off lands,  
South Africa and the Orient,  
Africa and India.  
Three or four of those little brains  
Reach out and feel its mysticism—  
To the others it's just—"jogaphy."  
"It's 'rifmatic time now."  
Pencils poised—well, most of them are.  
Johnnie and Ella just "Don't like  
    'rifmatic."  
And so it goes.

Pot-bellied stoves with smoke-leaking  
    stovepipes  
And the old hand bell for recess time;  
Snow in the winter  
And mud in the spring.  
And always the stove needs more wood.  
It's a long, hard day  
'Til they're on their way.  
To the farms that they left in the morn-  
    ing.  
And your arms are tired  
And your legs are weary  
And your ingenuity's exhausted  
And your eyes are bleary—

But you can't help smiling  
As the last little straggler  
Scampers out the door.  
Forgotten is the 'rifmatic paper  
Left behind on the floor.  
Gone are all thoughts  
Of "jogaphy" and school  
No room in that little brain now  
For education's rigid rule.

Clapboard rural schools  
With their tattered American flags  
Stand like sentinels  
Of an era fast disappearing.  
And countless numbers  
Of rural school children—  
Future America—  
God bless them!

## SENIOR CLASS SONG

Normal dear, we come to thee to learn:  
For thy strength and guidance we all yearn.  
Guide, oh guide us on to heights unknown,  
May our lights as brightly shine as thine have shone.  
Keep us calm throughout the changing years;  
Help us conquer evils, banish fears;  
And throughout life may thy treasured thoughts  
Help us teach to others lessons thou hast taught.

### CHORUS

Hail to thee our Alma Mater:  
Love and loyalty we bring.  
Seniors honor thee forever,  
And thy praises may we always sing.

As we Seniors move to higher lines,  
Joy and gladness fill our hearts and minds.  
Make us strong to face the coming year  
That we may do honor to thee, Normal dear,  
Singing as we travel on our way,  
May we cherish thee from day to day,  
Telling others of thy loving care,  
Of thy wondrous power and thy beauty rare.

## SENIOR CLASS HISTORY

IT was three short years ago that we entered Plattsburgh State Normal School as freshmen, a little hesitant—but eager for what the year would bring. We organized with the help of Dean Alice K. Lewis and the following officers: President, Vincent Stanger; Vice-President, Leah Pratt; Secretary, Mary Alice Nolan; Treasurer, William Morhous. Our outstanding accomplishment of the year was the Freshman Mid-year Ball, which was worth all the effort expended upon it.

In September, 1938, we carried on the most extensive Freshman Welcoming program which had yet been attempted. The class was reorganized under the following officers: President, William Morhous; Vice-President, Marie Jabaut; Secretary, Betty Kavanagh; Treasurer, Maurice Camp. Miss Woodward was chosen as our class adviser. A happy year sped quickly by—highlighted by a successful assembly program and a delightful Junior Prom.

Our senior year has been a happy, busy year for all of us. Before the close of our junior year, class elections were held. The only change was the election of Mary Feltman as Vice-President. Cadet work and practice teaching have proved valuable and enjoyable. The publication of the *CARDINAL* has been our greatest undertaking this year. Plans are now underway for Commencement Week, and those events which will mark our last activities as the Class of 1940.

As the last of the three-year elementary classes, our graduation marks the close of a period; it is a milestone in the development of the school. We have a deep feeling of regret at parting with our Home Economics seniors, who have been an integral part of us for three years; we wish them success as the first Home Economics graduates of Plattsburgh State Normal School.

In passing, we wish to thank both teachers and classmates who have helped to make our stay at Normal the happy one it has been.

# JUNIORS

## JUNIOR CLASS HISTORY

In the 1936-37 session of the State Legislature, a bill was passed establishing a four-year Home Economics course at Plattsburgh State Normal School. In October of 1939 the Board of Regents passed a further decree granting degrees to graduates of this course.

The first class entered in September of 1937. During the first three years it was organized with the present Senior Class, and cooperated with them in all class activities. This spring it held meetings to organize for next year.

This class will be the first to graduate from the new department, and it is our hope that we can prove ourselves worthy of the trust that has been put in us.

## SOPHOMORE CLASS HISTORY

WE, the class of 1942, are the first sophomore class in this Normal School. Our first task of the year was to enforce the rules for the freshmen. The Sophomore Guidance Committee held court regularly to try the "law-breaking" freshmen. Our class hopes that by initiating freshmen we have established a precedent which will eventually become a tradition of the school. Dandelion picking and cleaning the walks on the campus were a unique and interesting feature of the initiation period.

After guiding the freshmen through "thick and thin," we turned our attention to our gala event, the Sophomore Soirée, which was the first big dance of the year. It was also the first sophomore dance ever given in the school. Our efforts at using simple, inexpensive decorations were more than rewarded when we saw the gymnasium transformed into an outdoor autumn scene—a hunter's haven.

Another year has passed, and we, the members of the sophomore class, have reached the half-way mark in our professional training. It should be our aim to continue our work when we become juniors with the same cooperative spirit we have shown during our first two years as under-classmen.

## SOPHOMORE CLASS SONG

Dear Alma Mater, we sing your praise;  
We shall be true through all our days.  
We all adore your ivy wall,  
Your campus pond, your towers tall,  
The fun we have, the help we gain,  
Our friendships rare will never wane—  
We'll cheer for all, we'll fight it through—  
The Rust and Gold, the Class of '42.

At each year's ending, we'll take our place;  
We have the pep; we'll set the pace,  
We'll take the torch and hold it high  
And watch its gleam spread o'er the sky.  
We'll work to show that we're worth while  
And do our bit with happy smile,  
Complete the tasks we start to do—  
The Rust and Gold, the Class of '42.

## FRESHMAN CLASS HISTORY

ATTENTION, everybody! This is the class of 1943 reporting for inspection. In case you have not followed them closely through the year, this will be an excellent chance to acquaint yourself with their affairs.

They entered this institution somewhat green, but with a fine spirit of sportsmanship and cooperation. Pulling through the first ten weeks of red and white caps, ties and armbands, and various other freshman initiation "stunts," they came to a victorious climax by winning from the sophomores the tug-o'-war across the school pond. Following this, the class was organized and officers elected.

Successfully through "mid-years," they proceeded to saturate themselves with an under-sea theme for the Mid-Winter Freshman Hop and worked diligently until the coral reefs, sea-weed and decorative fish were in place. An overheard conversation between the adviser and a group of students the following morning disclosed the general opinion that a wonderful time was had by all.

In May, the class completed its activities by presenting a musical assembly program. The boys' quartet lived up to its reputation by again scoring a hit with the students and faculty.

## 1 FRESHMAN CLASS SONG

We are all proud to be, from the class of '43,  
Though we but freshmen are, we'll yet be heard both near and far,  
And, we'll go to any length, for in union there is strength.  
And we'll keep going on together as the class of '43.

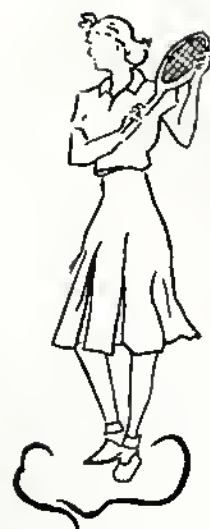

Honor and love shall rule, in devotion to our school,  
Her colors, red and white, will never fade out from our sight,  
And far we her praise will sing, so let the welkin ring,  
And we'll keep going on together as the class of '43.

## ALPHA KAPPA PHI

[DELTA CHAPTER]

*"And the echo answers softly ringing A-G-O-N-I-A-N"*

THUS another successful year in Alpha Kappa Phi draws to a close. A review of the social calendar of the sorority for the past year shows the following high-lights:

Our first social get-together was an alumna supper in the cafeteria. This was followed by a "Reversia" party which officially opened the rush season. Closing the season thirty-one girls were pledged Alpha Kappa Phi at a formal dinner-dance held in the Cumberland Hotel. Spring brought forth the annual assembly program. March 21, a dramatization of that unforgettable story "Hansel and Gretel." At the farewell banquet many a heart was saddened at the thought of leaving that which was held so dear in the memory of many.

No matter to what parts of the earth we may go, we will always be bound together by that spirit of fellowship, loyalty and cooperation which is so characteristic of Alpha Kappa Phi.

## CLIO

[DELTA CHAPTER]

AS a most successful year draws to a close, we have many fond memories of our times together. We opened our year with a picnic in September. Our assembly program entitled "Living Poetry" was presented the following month. Our rush season opened with a Farmers' Social and closed with the Interfraternity dance. On February 24 we pledged twenty new members at a formal dinner-dance at the Cumberland Hotel. The Alpha Delta Sorority joined us for the dance.

The pledges were initiated March 7 following a dinner given in their honor.

Now we must bid farewell to our departing seniors to whom we wish the best of luck and success in the future.

## ALPHA DELTA

[THETA CHAPTER]

THIS year has been a very busy and happy one for the members of the Alpha Delta Sorority. We are looking forward to future activities with our fifteen new members.

We began the year with a Hobo Rush Party, entertaining our guests with games, square dancing, and refreshments which were served hobo style. The evening was gaily brought to a close with a hayride.

Immediately following the Christmas vacation we sponsored an original assembly program. We took as our theme "A Reverie," and with the help of our adviser, Miss Berg, wrote the play during our meetings.

In February we entertained our pledges with a banquet at the Witherill Hotel. The banquet was followed by a dance in the Cumberland Hotel. During the next two weeks we initiated the girls, and finally in April we gave them full membership.

On the week-end beginning May 10, we plan to entertain at Plattsburgh two delegates from the chapters of Alpha Delta from each of the normal schools. The year will close with the Senior Farewell Banquet in June.

 Treasurer ..... CLAUDE LAPLANTE

THE Interfraternity Council is a body composed of three representatives from each sorority and fraternity in the school. It is the purpose of this council to act as a clearing house for common problems and to insure cooperation among the several groups represented. In promoting the educational and social aims of the school, the council sponsored a semi-formal dance on Friday night, December 1, 1939, as the major activity of rush period.

*Adviser*.....DOCTOR RUSTERHOLTZ

THE Astronomers' Club has been organized to help those students who are interested in a study of the stars and planets, and to give aid in the use of astronomical instruments.

This year the club participated in numerous and varied activities. Along with the discussion of this year's parade of the planets, we carried on a social program which included as a guest speaker Professor Reynolds of Clarkson Institute of Technology. Other activities included movies, parties, and actual observation and work with the telescope.

The club has proven to be of benefit to the students, and has served as a source of information to the people of the community.

THE Camera Club is maintained for those students who are interested in amateur photography. Its purpose is to aid its members in the development of photographic techniques and to establish standards of artistic excellence in picture taking.

The work this year included a study of developing and printing films, along with lectures and exhibits dealing with landscape photography and portraiture.

The club closed the year's activities with a May assembly program. The entertainment consisted of a "Silhouette-Guessing Contest" and a display of the use of color in photography.

## DANCE CLUB

THE Dance Club has for its purpose the further enjoyment of dancing and the development of talent. There is little formal organization and the meetings are devoted primarily to dancing or dance instruction.

A night of dancing was arranged, in which the different kinds of dance were demonstrated—country, folk, modern, and Greek dances. Some of the children of the practice school and members of the physical education classes did novelty clog dances. Part of the evening was spent in social dancing. This is the second annual dance exhibition that the club has sponsored.

Under the enthusiastic direction of Miss Alice Backus, the Dance Club has given its members a means of physical expression that has provided a pleasurable experience.

THE Home Economics Club, organized in 1937, is composed entirely of home economics students and faculty. The club is a professional organization affiliated with the State and National Home Economics Association.

The club meets once a month, each meeting being devoted to business, educational and social activities. In December, in cooperation with the Men's Club, the organization sponsored a tea dance. As a part of its all-school activities the club staged an assembly program in May, the nature of which was a fashion show. For this the girls made and modeled clothes.

The club is expanding not only in membership but in scope of activity as well. This year for the first time it sponsored an "Open House" for high school students and home-making teachers. It is hoped that this program will become a major feature of the club's activities in the future.

WITH the largest membership in the history of the club, regular meetings were exceptionally well planned and executed. One-act plays entirely under student direction were given, and other phases of dramatic interest proved to be interesting and valuable features of the meeting.

The club presented at assembly, December 7, a one-act play entitled "The Shooting Star," by Jack Lewis, and combined with the music organizations to present the "Candlelight Service"—a Christmas tradition in Plattsburgh.

As its final presentation Lamron produced "Saturday's Children," by Maxwell Anderson, on March 18. The *Plattsburgh Daily Press*, in its review, commented as follows: "It is a pleasure to see a group of young people take a place that has proved its own worth as a dramatic document and get every bit of meat out of it as these students of the drama did last night."

AS is suggested by its name, the Rural Club is concerned with rural life. It is the purpose of this club to produce better teachers by giving its members an opportunity to acquaint themselves with rural problems, and by giving them new ideas, which they, as teachers, can carry out in their work. A second function of the club is that of providing a society in which all may participate for mutual enjoyment.

The Rural Club sponsors the first tea dance of the year as a part of the activities of Freshman Week. The meetings of this club are held on the second Thursday of each month, and each is a combined social and business meeting. At these meetings we are privileged to hear first-hand information from those who are directly connected with rural work. These talks are followed by refreshments and by games which can be used in rural schools.

## OUTING CLUB

THE Outing Club was organized by Miss Backus to give outdoor-minded students the opportunity to enjoy organized hikes, skating parties and other forms of outdoor activities. Meetings this year included a mountain climb at Po-Ko Moonshine, a Scavenger Hunt, a skating party on Cumberland Bay, and a skiing party at Rand Hill.

THE Book Club tries to produce an interest in good reading, especially current literature. To do so, at each meeting of the club, we have given book reports or read book reviews. This has stimulated the interest of the members of the club enough to cause them to read many of the books discussed.

In order to arouse interest outside the club, we have had exhibitions of books in the library. The one for Book Week in November was, without doubt, the most successful.

The Book Club is introducing the *Omnibook* to the library. This is a new type of magazine, each copy of which consists of five abridgments of the current best sellers.

THE Press Club is responsible for the preparation and publication of *The Tower*. Through this activity the club tries to encourage students to do experimental writing of various types and to publish a magazine which will be of interest to the student body.

This year the club has tried especially to feature poetry and short stories in *The Tower*. It is felt that this effort not only has resulted in creative literature of respectable quality but also has brought about a closer cooperation between the staff and the formal classes in writing.

THE Rock-Crackers Club, the first organization of its kind in the history of the school, was organized this year by an enthusiastic group of Home Economics and Elementary students, interested in exploring the field of geology. One of the major purposes of the club is to provide opportunities for its members to learn and interpret the meaning of various rock formations in the vicinity of Plattsburgh and the outlying districts. Another objective of the club is to make a collection of rocks, minerals, and fossils from this and other localities.

Some of the activities of the Rock-Crackers consisted of a sewing bee to make specimen bags, an informal afternoon tea, field trips to Chazy Landing, the Sheridan Iron Works, Champlain, N. Y., and White Face Mountain.

The excursion which was most valuable, both in acquiring scientific knowledge as well as in enjoyment, was the motor trip to Chazy Landing. Here the amateur geologists examined pebbles and boulders washed up by the waves along the shores of Lake Champlain. Six-pound sledge hammers were wielded by the members with dubious skill. The discovery of a variety of fossils especially common in the limestone of the vicinity was the most interesting event of the day.

The primary function and existence of the Men's Club is to aid the boys in their problems, both personal and professional. All male members of the student body and the men of the faculty comprise the club. This year the club welcomed fifteen freshman members.

Varied programs featured the regular monthly meetings. Of especial interest were a discussion of the European situation by Professor Noyes, and a visitation by representatives of the Mormons, who gave some interesting information concerning educational travel through London, England.

The club also sponsored tennis, baseball, football, ping-pong, and basketball teams. The climaxing event of this program was an entry of a basketball team in the Gold Medal Tournament.

The Men's Club has had a full and enjoyable year of activity and cooperation. We feel that a closer and more friendly relationship is brought about between the faculty and the young men of the school by the club.

## SUPPER CLUB

IN its second year of existence, the Supper Club followed much the same program as the first year. Food service and purchase, experimental foods made of inexpensive materials, and novelty foods were generally the topic of discussion.

Last year the Supper Club was the generating force that introduced the idea of an "All-School Supper." The idea was so enthusiastically received and executed that the school decided to continue the pleasurable experience. This year, with the entire faculty and student bodies assisting, the All-School Supper was again a decided success.

We hope that these "good beginnings make strong themselves by more good" and that the Supper Club will continue to flourish.

## ART CLUB

### OFFICERS

THE principal aim of the Art Club is to promote an interest in and an appreciation of art. Tie dyeing was one of the most interesting activities carried on by the club members and many of the students of the Art Department. In February, the Art Club presented a Leap Year tea dance for the faculty members and the students of the Normal School. At the end of the year, the members of the club made a trip to Montreal to study the art of this picturesque city.

## THE MUSIC DEPARTMENT

UNDER the direction of Mr. Lyndon R. Street, our Music Department has enjoyed a very successful year. One hundred and fifty students, approximately fifty percent of the entire student body, have participated in cultivating and promoting artistic group singing and playing. The music organizations include: The Orchestra, the Brass Quartet, the Wood-wind Quartet, the Mixed Chorus, the Girls' Glee Club, the Men's Glee Club, the Ladies' Octette, the Male Quartet. Special assembly programs were presented by the groups on November 16, January 18, and March 7.

The Music Department sponsors the annual Music Supervisors' Visitation Day, and the observance of National Music Week at Plattsburgh. The Orchestra and Male Quartet furnished the music for the County Teachers Spring Conference on May 10. Other annual activities in which the Department of Music participates are the Christmas Candlelight Service, the Kiwanis-Rotary luncheon, the Montreal broadcast, the Lake Placid Festival, and Commencement Week.

The music organizations, offering opportunity for wide student participation, have had remarkable growth at Plattsburgh Normal, and contribute significantly to musical education and enjoyment on the campus.

DUE to a greater abundance of vocal talent among this year's students, both a Girls' Glee Club and a Men's Glee Club were formed, the combination of which comprises the Mixed Chorus.

The Mixed Chorus has presented some splendid musical entertainment throughout the year.

The Chorus participated in the Candlelight Service, a performance which was truly enjoyed by a very appreciative audience. An assembly and the Music Supervisors' Visitation Day were featured by members that reflected the development of the Mixed Chorus as a musical unit.

## EVENSONG

*By* CHARLES HUERTER

(Dedicated to the Mixed Chorus of the State Teachers College at Plattsburgh, N. Y., Prof. Lyndon R. Street, and their Annual National Music Week Festival of High School Chorus of Northern and Northeastern New York.)

Softly sing the birds at eventide,  
As twilight shadows fall.  
Faintly comes the sound of distant bells—  
A hush then over all.  
Slowly rise the clouds of silver'd mists  
And zephyrs murmur low.  
While o'er the world there seems to come  
A peace that we would know.  
Strangely calm this hour of memories  
That brings back yesteryear.  
Lightly rest the cares of weary hours  
And gone is ev'ry fear.  
Gently sink all things to sweet repose.  
As ends all work and play.  
And so we pray for peaceful sleep  
'Til dawns another day.  
And so we pray for peaceful sleep  
'Til dawns another day.

## TWILIGHT INTERLUDE

*Words:* A. STILLMAN

*Music:* JULES REYNARD

(Dedicated to the Girls' Glee Club of the State Teachers College at Plattsburgh, N. Y., Prof. Lyndon R. Street, Director, and their annual National Music Week Festival of High School Girls' Glee Clubs of Northern-Northeastern New York.)

When twilight's breezes blow to flame the ev'ning skies—  
With mellow magic glow and tender silv'ry gleam—  
Their radiant beauty thrills me, their glory fills my eyes—  
And I'm enraptured by the dusky twilight's dream.  
When all the trees and skies and fields are in one mood,  
And little birds fly to their solitary nest,  
I sleep and dream in this quietude, I am one with those at rest,  
I am one with the hearts at rest in the shadows of the twilight.  
My heart has swiftly strayed to some far, unknown tide,  
Within a land of soundless calm do I abide,  
Within a land of soundless calm.  
There to a misty shore my heart has flown tonight,  
Happy with peace and nature in the moon-rise light—  
A calm has filled the West,  
My heart's at rest.

## THE ORCHESTRA

THE Orchestra is an organization which affords its members much enjoyment and an excellent opportunity to become acquainted with classical and semi-classical music. This year membership has increased and instrumentation has been more varied.

Among the activities in which the Orchestra has taken part this year are a concert assembly for the Normal School students, another for Music Supervisors' Visitation Day, and the spring trips to nearby towns. These, perhaps, were the most popular of all activities from the students' point of view.

The Orchestra plays for the County Teachers Annual Spring Conference, and also during Music Week. In May it takes part in the Music Festival held at Lake Placid. The Orchestra also plays for the Baccalaureate Service, Moving-Up Day, and Commencement Exercises.

# NATIONAL MUSIC WEEK

May 3 to 7

*Sponsored by the Department of Music*

THE Music Department sponsors National Music Week for the primary purpose of assisting and strengthening the organizations in Plattsburgh and vicinity which are advancing the art of music and promoting its enjoyment.

The fourteenth observance of National Music Week at Plattsburgh was, perhaps, the largest and best Music Festival that has ever been held in Northern-Northeastern New York. More than thirty-five different communities were represented. Over sixty different musical organizations, totaling approximately 3,500 singers and players appeared on various programs during the week.

High standards of musical proficiency were outstanding in the annual observance of National Music Week in Plattsburgh. It is to be expected that the good work done in promoting this year's Festival will be continued and extended next year and for years to come.

# BASKETBALL

Through the efforts of Doctor Redcay, and the splendid teamwork which characterizes the P. S. N. S. squad, the basketball enthusiasts of Plattsburgh were provided with plenty of closely matched and exciting intercollegiate games. The 1939-40 basketball season was, from the viewpoint of student interest, the most successful Plattsburgh Normal School has ever seen. Although the team won fewer games than anticipated, the games were so closely contested that interest never lagged. The sportsmanship shown by our men, winning or losing, was a credit to the school.

The tennis team of P. S. N. S., first organized last year, was comprised of six men and played four matches. This year interest in the team increased and, despite inclement weather, fifteen men turned out early in April. Of these, five men are seniors who were on the squad last year; the rest are freshmen and sophomores. We believe that the interest and enthusiasm shown at present is a good indication of successful seasons to come. The schedule for this year includes games with the following teams:

St. Michael's College  
Norwich University  
Lake Placid Town Team  
Rouses Point Town Team  
Plattsburgh Town Team

## SUMMER SESSION

Summer session opened June 26, with an enrollment of 226. Some of the highlights of the summer were: a trip to Ausable Chasm where Dr. Forrest Ray Moulton, Permanent Secretary of the American Association for the Advancement of Science, was honored at a banquet; a jaunt to the Hagar Camp with its beautiful White Pine Forest; a visit to the Chazy Orchards; an all night observation of the stars and planets from the top of Whiteface Mountain; a tour of inspection through the laboratories of Dr. Trudeau and the Memorial Hospital at Saranac Lake; a three-day trip to Ottawa and the Thousand Islands; and a three-day literary-science trip in New England. Some of the interesting places visited on the New England trip were: Kipling's Home, Old Wayside Inn, Longfellow's Home, Polar Caves, Daniel Webster's birthplace, and Astronomical Observatory of Harvard University at Oak Ridge.

Pages would be required to tell of the value and inspiration of these few summer weeks.

## In Memoriam

DR. HAWKINS

It has been said that we do not realize the value of a friend until we have lost him. This may be true in some instances, but not in the case of Dr. Hawkins.

To him we owe a great deal. His efforts have given us an ideal in education; and his perseverance, strength of character, and wisdom have given us an ideal in character toward which we may always strive.

Dr. Hawkins, friend and guide, we salute you once more!

## In Memoriam

HONORABLE WALLACE E. PIERCE

With the death of the Honorable Wallace E. Pierce, Plattsburgh State Normal School lost a valuable friend. Few men have worked as tirelessly and conscientiously as did he in the interests of the school.

A graduate of the school himself, a former teacher, and at the time of his death President of the Board of Visitors, he had an understanding of the needs of the institution and the problems of the student body that few men acquire. His passing is an irreparable loss, not only to Plattsburgh State Normal School, but also to all of New York State.

## TRIBUTE TO DECEASED MEMBERS OF THE FACULTY

"The years they come and go, the races drop in the grave, but never the love doth so." These words Robert Browning wrote yearly as in the annual cycle there came again that day on which he had lost Elizabeth Barrett Browning.

Thoughts like this have come to many of us as we look back over the years of our Alma Mater and its pleasant memories. Among the fondest of these are the many hours of happy companionship and generous guidance given by faculty members, many of whom have passed on, their work complete. Theirs is an everlasting example which will stay with us "per omnia saecula," and the admiration and appreciation of their labor will remain forever deep in the pyx of our hearts.

## THE OLD BUILDING

The first building which housed the Plattsburgh State Normal School was erected during 1889 and 1890. It stood at the head of Court Street on a gentle rise overlooking the city.

It was a large brick building with ivy-covered walls, graceful arches, and a tall tower which soon became the symbol by which the school was known throughout the state.

The building was located in the center of a fifteen-acre campus. The same trees that shade our campus today were planted along the original curving gravel walks. The same artificial pond which we now enjoy was planned by a professional landscape artist at the time the old school was built, and has reflected the faces of several generations of students and training school pupils.

The building was equipped with all the modern educational facilities of the time, giving adequate opportunity for its varied social, academic and professional activities. The school had its own print shop, which during the early years published the year book and various literary magazines.

This school stood as a friendly guardian to the entire city for more than forty years, and all those who knew it felt a personal loss at its destruction.

## THE NEW BUILDING

The new building stands on the site of the old one. Its architecture is modified Gothic, with gabled roofs and stately towers.

The building is surrounded by spacious green lawns, tall spreading trees, and low shrubbery. The ivy vines planted by each graduating class give the new brick walls some feeling of age and permanence. At the left of the building, reflecting the trees, gables, and sky, and fed by a fountain, is our pond. In the rear of the building are found tennis courts and ball fields. Two well-planned indoor courts contain many biological specimens.

Inside the school one finds each room carefully planned and equipped. The auditorium has a specially lighted stage, projection room, and a beautiful organ. The science, crafts, art, and manual training rooms contain modern equipment. The Home Economics laboratories include living and dining units, a foods laboratory, and two clothing rooms. The kindergarten, cafeteria, music room, and libraries are considered model. The gymnasiums contain equipment for tennis, badminton, volleyball, shuffleboard, basketball, deck tennis, table tennis, archery, and other sports.

Both inside and out, the present building is a fine example of modern trends in the education of teachers. We are proud to attend it, and honor it.

## BEGINNINGS

Plattsburgh, the youngest of the now existing Normal Schools, was authorized by an act of legislature introduced by the Hon. Stephen Moffitt in the spring of 1889. In June of the same year, the act became a law and an appropriation of sixty thousand dollars was granted for construction of the school.

The building was erected during 1889 and 1890 on a site of fifteen acres at the head of Court Street. On September third, 1890, the new school opened with an attendance of approximately one hundred students. Fox Holden, superintendent of the Plattsburgh village schools, was appointed the first principal, and a faculty of twelve was chosen. The course offered was a two-year training course for the training of elementary teachers. This course remained until 1922, when it was changed to a three-year course by the State Legislature.

With the resignation of Fox Holden in 1892, Edward N. Jones, superintendent of schools at Saratoga Springs, became principal. In 1895, it was found necessary to enlarge the building by adding a south wing. The following year a kindergarten was organized, and a kindergarten-primary course added to the curriculum.

In 1898, Dr. Jones resigned and was succeeded by Dr. George K. Hawkins, a member of the original Normal School faculty.

## DESTRUCTION

In 1910, authority was given to Plattsburgh to train commercial teachers for the high schools of the state. For the next twenty years it was one of the chief sources of supply for commercial teachers in the East and won nationwide recognition. Commercial teachers, trained at Plattsburgh, have an enviable reputation, and today most of the members of the Plattsburgh Alumni Association in the New York City district are graduates of the commercial department. Miss Elizabeth Ketchum, a member of the former commercial faculty, is now a member of the education staff of the present Normal School faculty. William G. Thompson, former head of the commercial department, died only a short while ago, in March, 1940.

Disaster struck on January 26, 1929. The building, with all its contents, was completely destroyed by fire. The devastation was complete—nothing was saved.

The fire, starting in the boiler room, quickly spread its way through the building, and within half an hour complete havoc had been wrought. Fortunately, since it happened on Saturday, the building was unoccupied except for three or four students and one teacher, who were forced to jump to safety.

However, the spirit of Plattsburgh could not be destroyed. Plans were immediately begun for rehabilitation, and those who saw the work of many years reduced to ashes turned to face the problem of reconstruction.

## RECONSTRUCTION

Immediately after the fire the entire city sprang into action, and the mayor offered every available space to the Normal School group. The City Hall was made headquarters, with the offices and classes located there. Training school pupils were accommodated in the other grade schools, the old high school, and even in church parlors. The Normal continued under these conditions for the rest of the year, and until the new building was completed.

The construction of this new school was begun in 1930 and completed in 1932, at a cost of slightly over a million dollars. At this time the commercial department was moved to Albany State Teachers College. In September the faculty and students moved into the building from their temporary quarters in the City Hall. Although the interior of the building was not entirely completed, the students were overjoyed to have a school they could consider their own once more, and cheerfully tolerated unplastered walls, the smell of fresh paint, and the dust of lumber and floor-sanding equipment.

After one year in the new building, Dr. Hawkins, having served as principal for thirty-five years, the last few of which had proved a very great strain, retired, thus closing another era in the history of the school.

## THE PRESENT

Upon the retirement of Dr. Hawkins, and upon recommendation of the local Board of Visitors, the State Commissioner of Education and the Board of Regents appointed Dr. Charles C. Ward to the principalship of Plattsburgh.

Dr. Ward's first years were concerned largely with completing many incidentals of construction within the building. Classes were constantly moving from one room to another while classrooms were being plastered, painted, and furnished. Special equipment had to be installed, and until this was done students used such makeshift equipment as faculty and students could contrive. The grounds were being graded, walks were being laid, and trees and shrubbery planted.

In October of 1933 the first important ceremony of the new era took place. Dr. Frank P. Graves, State Commissioner of Education, officiated in the dedication of the new building.

In September, 1937, a Home Economics Department was established, and in October, 1939, the Board of Regents of the University of the State of New York granted to students, upon completion of the required four-year curriculum, the degree of Bachelor of Science in Education. For several years the state has needed more teachers of home economics than its approved teacher training departments have been able to prepare. This course at Plattsburgh has been developed to meet this growing demand.

In September, 1938, the Board of Regents changed the Elementary Course in New York State Normal Schools from a three-year to a four-year course. It is expected that within a short time a degree will be granted to all students who complete this required four-year course for elementary teaching.

Today Plattsburgh State Normal School is a living, growing institution, which has weathered its storms and come through them successfully. It stands as a symbol of strength and courage to the active, confident students who attend it now, and to those alumni who return to assist in this celebration of its fifty years of existence.

## THE PLATTSBURGH ALUMNI ASSOCIATION

"When with the ever-circling years  
Comes round the age of gold,"—SEARS.

### OFFICERS

MRS. ETHEL S. VAN TASSEL '28.....*President*  
WATSON G. CROSSMAN '15.....*Vice-President*  
JAMES J. COLLINS '27.....*Secretary*  
NELLIE C. YOUNG '26.....*Treasurer*

The first graduating class of Plattsburgh State Normal School, 1891, consisted of three people, two of whom are still living. In June, 1940, 2,987 graduates will have received licenses to teach in New York State.

In June, 1892, the graduates of the first and second classes met to form the Plattsburgh State Normal School Alumni Association. The following officers were elected:

*President*.....MYRA J. BUTLER '92  
*First Vice-President*.....STELLA L. SHERMAN '92  
*Second Vice-President*.....HELEN G. MCCONNELL '91  
*Secretary and Treasurer*.....M. RALPH BAKER '92

Each year from that date to the present time, the Association bids its members return once a year to their Alma Mater. For many years this reunion was held during the Commencement Week, but recently this date has been changed to July. The summer meeting seems to suit better the conveniences of many graduates who are teaching in high schools.

As the classes increased in numbers and settled in places distant from Plattsburgh, three branches of the Parent Association were formed—one at Rochester, New York, another at Burlington, Vermont, and the largest at New York City. The Metropolitan branch, numbering over five hundred, holds its annual meeting the second Saturday in May at New York City.

After passing the milestone of fifty years, it may be the proper time to evaluate the usefulness of the Alumni Association to the school. In a material way the Association has contributed more than fifty percent of the purchase price of the Hammond organ which has been installed in the auditorium; it has donated \$600 to the Student Loan Fund, and its dues have helped perpetuate the memory of George Hudson in the form of a granite boulder with a bronze plaque on the campus.

To try to evaluate the immeasurable factor of enthusiasm, cooperation and faithfulness which the Association has fostered would be a fruitless task. It has been invaluable in keeping the "Plattsburgh Spirit"—that spirit which has been displayed on so many occasions when the school has needed assistance.

## RESOLUTIONS

The Plattsburgh State Normal School Alumni Association will spread upon the minutes of its next meeting the following Memorial Resolution on our late Principal and friend, Dr. George Knight Hawkins.

In the passing of Doctor Hawkins the members of Plattsburgh State Normal School Alumni Association feel deeply bereft, for we enjoyed his wise direction and delightful inspiration.

*Whereas*, Doctor Hawkins, beloved educator of the North Country, who, by his administrative leadership, executive skill, and unfailing perseverance, together with his devotion in behalf of the students, shed only such helpfulness as sends one singing to his tasks. To those who have come under this influence, the members of the Plattsburgh State Normal School Alumni Association express deepest sympathy.

*Whereas*, the members of the Plattsburgh State Normal School Alumni Association do honor to the memory of a friend and counselor whose dignity, kindness, graceful bearing, and reserved manner that bespoke great strength lent great distinction to the institution he loved so well. These characteristics inspired us and we found them worthy of admiration and imitation, and we hereby express our appreciation of such lasting influence.

*Be it therefore resolved*, that at the annual meeting and midsummer luncheon of the Plattsburgh State Normal School Alumni Association these minutes be read in recognition of the passing of a revered and esteemed friend.

It may be said that we have all died a little in his passing; yet "Death is the warden and not the thief of our treasures."

His work will carry on—it is being carried on in the new school. Doctor Hawkins' words to us may well have been the very words of the old shepherd in Wordsworth's poem "Michael"—words of great strength and fidelity which are—

"I lay now the cornerstone as I requested—  
Now, fare thee well—  
When thou return'st thou in this place will see  
A work which is not here; a covenant  
'Twill be between us; but, whatever fate  
Befall thee, I shall love thee to the last  
And bear thy memory with me to the grave."

*Now, therefore, be it further resolved*, that a copy of these resolutions be forwarded with our sincerest sympathy to the members of his family.

MINNIE L. STOUGHTON,  
*President.*  
AGNES F. POWERS,  
*Secretary.*
